Student Papers can be based upon a Thesis, Capstone project, or other Major Project or Investigation. Papers written and submitted by teams are also encouraged. Papers are considered for awards based on:

1. Presentation of techniques, processes, software, modified applications, etc., to solve known problems today or in the immediate future.
2. Conformance with published preparation guidelines.
3. Demonstration of a completed project or significant progress toward completion of a project.
4. Creative and innovative approaches to solving known problems.
5. Explanation and clarification of telemetry and communications processes.

Awards for First and Second Place papers written by Graduate Student Authors are $1000 and $500 Respectively.

Awards for First and Second Place papers written by Undergraduate Student Authors are $1000 and $500 Respectively.
